

16" 5.56 CMV BARREL

Crafted to mil-spec standards from 4150 Chrome Moly Vanadium with a QPQ corrosion resistant finish.

15" M-LOK HANDGUARD

Seamlessly mounts to the M4E1 upper receiver and provides full M-LOK mounting capabilities, QD swivel sockets at the 3, 6, and 9 o'clock positions, and full top picatinny rail to accommodate any accessories you may need.

M4E1 LOWER RECEIVER

Machined from custom forgings this lower receiver offers features traditionally reserved for billet lower receivers without sacrificing structural integrity.

MAGPUL MOE GRIP

Provides an ergonomic upgrade over traditional A2 pistol grips.

MAGPUL MOE SL STOCK

Provides an upgrade in ergonomics over traditional mil-spec stocks.

INTERMEDIATE PATROL RIFLE (IPR)

The Aero Precision Intermediate Patrol Rifle is a modernized solution for standard use on patrol or as a Designated Marksman Rifle (DMR). Perfect for daily patrol use and storage, ready should the need arise. Features selected ambidextrous controls and a free float MLOK handguard to keep weight down, the IPR can be configured in either 14.5 carbine (SBR) or 16 inch variants based on agency needs. Paired with a LAHAR-K suppressor this system provides an excellent patrol solution with reduced sound and flash signature.

CONFIGURATIONS

<u>SKU</u>	<u>DESCRIPTION</u>
------------	--------------------
